

Estimating TRA-SER Integrator

Estimating TRA-SER Integrator provides a link from Trade Service Corporation's TRA-SER Premier software to estimating applications within Sage Timberline Office.

This software automates item pricing, giving you the ability to import and update your Sage Timberline Office database with items and pricing from the Trade Service solution.

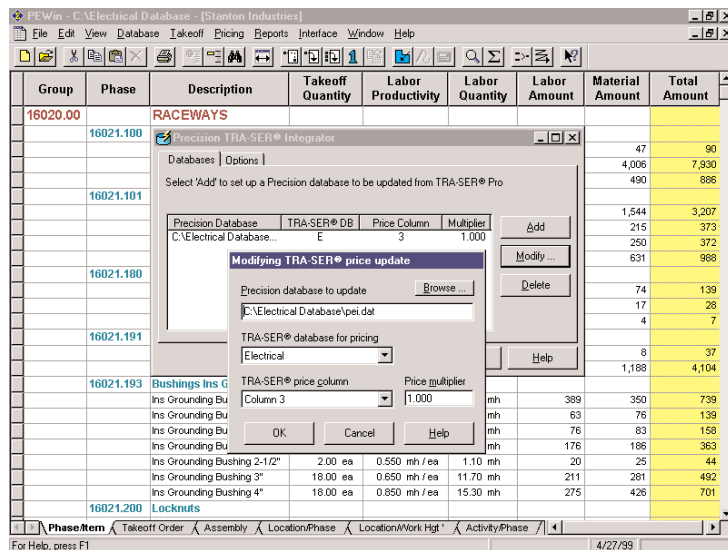

With Estimating TRA-SER Integrator, you have direct access to Trade Service TRA-SER Premier software—pricing service software for electrical, plumbing, and HVACR components. You choose the Trade Service databases you want to use, which items and prices to import, and whether to adjust pricing by a multiplier or import it "as is." Once you've set up the integration, maintaining item pricing is as simple as a few mouse clicks.

Features and efficiencies

- Integrate Sage Timberline Office estimating with Trade Service TRA-SER Premier.
- Access the Trade Service electrical, plumbing, and HVACR databases.
- Initiate searches of your Sage Timberline Office databases for items with matching Trade Service UPC numbers and then update those items with Trade Service prices.
- Link as many Sage Timberline Office databases as you like to Trade Service databases.

- Access multiple item prices, broken carton prices, carton quantity prices, and manufacturer's prices.
- Adjust the Trade Service pricing you import up or down by a multiplier if needed.
- Access online help system for quick technical assistance.

Estimating TRA-SER Integrator is part of Sage Timberline Office, fully integrated software created to streamline work and connect the people you depend on to build your business.

Updating database pricing is much easier with Estimating TRA-SER Integrator. You choose which Trade Service databases to use, what pricing to import, and if prices need to be adjusted or can be used "as is."
